

Note: Vintage circuit, using obsolete transistor types.

Specifications:

Continuous Sine Output Power (40hms): 35W
 DC Supply Voltage: +44V (+48V no-load)
 DC Supply Current: 1.2A (25mA no-load)
 AF-Input Sensitivity: 1VRMS
 Frequency Response (-3dB): 5Hz .. 100kHz
 Distortion (1kHz/35W): 0.1%
 Manufacturer: Thomsen Elektronik, Nenderoth
 Year of Production: 1972
 Cost (kit): 48.50DM
 Cost (pre-assembled): 62.70DM
